Variables inheritance in next chunk

Set variable

```r
w = as.vector(c(2,6,7,5,7,8,5,7,6))
```

http://stackoverflow.com/questions/42595620/variables-set-in-previous-chunks-are-inherited-in-case-of-r-chunks-only-r-markd

Print mean

```r
mean(w)
```

```
